

ASSESSMENT GUIDELINES FOR MIDDLE YEARS (GRADES 6-8)

- The focus in Grades 6-8 is towards developing skills and competencies with a robust knowledge base and evaluated through a variety of assessment tools. The same has been illustrated in the latest National Education Policy 2020 in their new restructuring of school curriculum and pedagogy in the 5+3+3+4 system.
- To ensure the holistic development of students in the Middle Years, there will be ample opportunity to explore and experience a wide range of areas in scholastic and foundational domains.
- These assessments will be ongoing and aimed at providing information to guide teaching and improving student learning & performance. All student work will be assessed with positive, constructive feedback and returned promptly.
- For the assessments across the year, the type of questions provided to the students must address Knowledge & Concepts, Subject Skills & Competencies, and Research Skills.
- There will be subject-specific remarks in the report card based on anecdotal evidence. The overall remark will be given by the HRT.
